Contents

NUMBER 1, JANUARY/FEBRUARY

1 Orthostatic hypotension after the first administration of prazosin in hypertensive patients: role of the plasma volume
A. Semplicini, A. C. Pessina, P. Palatini, M. Hlede and C. Dal Palù

11 Agonist interaction and decentralization supersensitivity in the nictitating membrane of the cat
S. Shavit and A. D. Korczyn

17 The effects of captopril (SQ 14,225) on the systemic and coronary haemodynamics of the intact anaesthetized dog
G. M. Maxwell, V. Rencis and D. Ness

25 Adrenaline depletion in the hypothalmus of the rat after chronic α-methyldopa
P. M. Beart, Denise Prosser and W. J. Louis

33 *In-vivo* modification of angiotensin II pressor responsiveness in sheep by indomethacin
David S. Beilby, John P. Coghlan, Derek A. Denton, William F. Graham, Timothy J. Humphery, Bruce A. Scoggins and Judith A. Whitworth

39 Effect of adrenocortical steroids and their structural analogues on blood pressure in sheep
Judith A. Whitworth, Kingsley J. F. Allen, John P. Coghlan, Derek A. Denton, James S. K. Fan, Timothy J. Humphery, John G. McDougall and Bruce A. Scoggins

49 Selective development of tolerance to β-adrenoceptor agonists in skeletal muscle as compared with airway smooth muscle from the guinea-pig
E. Holmberg, A.-B. Jeppsson and B. Waldeck

57 Effects of isoprenaline, levodopa and a phosphodiesterase inhibitor (ICI 63,197) on cyclic AMP levels and contractions of soleus muscles in anaesthetized cats
Zainuddin Merican and M. W. Nott

67 Effect of depletion of spinal noradrenaline by 6-hydroxydopamine on the development of renal hypertension in rats
M. C. Bosland, D. H. G. Versteeg, J. van Put and W. de Jong

Short Communications

79 Baroreceptor reflex in the rat after converting enzyme inhibition or angiotensin receptor blockade
Thomas G. Coleman, Maria Cristina O. Salgado, Roy G. Bengis, Milton H. Davis, Jr and Ann C. Dent

83 Altered cardiac noradrenaline stores in DOCA-salt hypertensive rats
P. R. C. Howe, M. J. West and J. P. Chalmers

87 **Letter to the Editor**

NUMBER 2, MARCH/APRIL

89 Effects of histamine H_1- and H_2-receptor antagonists in the cranial circulation of the monkey
G. D. A. Lord, E. J. Mylecharane, J. W. Duckworth and J. W. Lance

101 Tolerance to the effects of Δ^1-tetrahydrocannabinol on the pressor responses to noradrenaline in rats
D. M. F. Li

109 Angiotensin and the cardiac baroreflex response to phenylephrine
W. B. Lee and E. R. Lumbers

119 A study of the thermogenic effect of ethanol in the hypothermic rat
M. F. M. James, A. A. van den Berg, N. A. French and J. F. White

125 Circulating hypotensive factor in pregnant spontaneously hypertensive rats
T. Kubota and T. Yamada

133 Studies in the rat on endralazine, a new antihypertensive drug structurally related to hydralazine
Helen F. Oates and Lynette M. Stoker

141 The effects of GABA-ergic drugs on enkephalin-induced motor seizure phenomena in the rat
M. R. Dzoljic and A. L. v.d. Poel-Heisterkamp

151 An analysis of the respiratory stimulant effect of physostigmine and neostigmine in the conscious rabbit
M. Weinstock, D. Roll and Y. Zilberman

159 A study of the effects of hypothyroidism induced by propylthiouracil on adrenoceptors and noradrenaline levels in the vas deferens of the rat
J. A. Leedham, G. M. Handberg, E. J. Ishac and J. N. Pennefather

171 Inotropic responses of isolated atrial and ventricular muscle from the dog heart to inosine, guanosine and adenosine
Shigetoshi Chiba, Hidehiko Watanabe and Yasuyuki Furukawa

175 Sources of calcium for contraction of guinea-pig isolated tracheal smooth muscle
B. R. Creese and M. A. Denborough

Short Communication

183 Cardiac β-adrenoreceptors in the thyroxine-treated dog
K. Ho, B. L. Lloyd and R. R. Taylor

NUMBER 3, MAY/JUNE

189 Importance of circulating angiotensin II for elevation of arterial pressure during acute hypercapnia in anaesthetized dogs
J. Staszewska-Barczak and G. J. Dusting

203 The effect of renal denervation on ACTH-induced hypertension in sheep
J. A. Whitworth, D. A. Denton, W. F. Graham, T. J. Humphery, B. A. Scoggins and J. P. Coghlan

209 Sodium-dependent relaxation in arterial smooth muscle
M. N. Gillespie, K. E. Niehaus, I. W. Rodgers and L. Diamond
215 Effects of thyroid hormones, antithyroid drugs and iodide on *in vitro* conversion of thyroxine to triiodothyronine
T. Aizawa and T. Yamada
227 Systemic and regional haemodynamic responses to isoprenaline in conscious renal hypertensive rabbits
M. van Boom and P. R. Saxena

Review Article
241 Functional organization of central cardiovascular pathways
R. A. L. Dampney

Short Communications
261 Effect of sustained hypernatraemia on the renin-aldosterone system in the dog
D. B. Young and R. E. McCaa
267 Lack of prolonged effect of antidiuretic hormone on the renin-aldosterone system in the dog
D. B. Young and R. E. McCaa
273 The β-adrenoreceptor in human lymphocytes
Y. Watanabe, R.-T. Lai and H. Yoshida
277 Direct vasodilator activity of atropine in the rat perfused hindlimb preparation
B. A. Merrick and T. L. Holcslaw
283 The influence of heart rate on digoxin-induced inhibition of myocardial Na^+-K^+-ATPase activity in the dog
A. J. Marsh, B. L. Lloyd and R. R. Taylor
287 Serum concentrations of digoxin entrapped in liposomes after intravenous administration in dogs
M. W. Fountain, W. D. Pedersoli, W. R. Ravis and V. K. Ganjam
293 **Book Review**

NUMBER 4, JULY/AUGUST

295 Rat myocardial protein degradation
J. H. Steer and B. E. Hopkins
303 The ketotic ratio (KB/NEFA) in man
D. S. Schade and R. P. Eaton
315 Piretanide and urinary excretion of ions in rat. Effect of indomethacin
H. Nguyen-Simonnet, C. Gauthier and M. Pellet
327 Residual catecholamines in extrinsically denervated guinea-pig ileum
P. R. C. Howe, J. C. Provis, J. B. Furness, M. Costa and J. P. Chalmers
335 Effects of changing haematocrit, ventricular rate and myocardial inotropy on the accuracy of impedance cardiography
A. W. Quail and F. M. Traugott

Short Communication

345 Failure of aspirin to modify the hypotensive action of captopril in spontaneously hypertensive rats
R. DiNicolantonio, G. J. Dusting, J. S. Hutchinson and F. A. O. Mendelsohn

Circular

351 Future meetings of the Australian Society for Medical Research: possibilities for improved coordination with other groups and societies

353 Proceedings of the Australian Society for Medical Research, held in December 1980, Academy of Science, Canberra

431 **Book Review**

NUMBER 5, SEPTEMBER/OCTOBER

433 Preface

433 Corrigendum

435 Increased conversion of arachidonic acid to vasodilator prostanoids in spontaneously hypertensive rats
G. J. Dusting, W. Davies, T. Drysdale and A. E. Doyle

441 Biosynthesis of preprorenin and intracellular conversion of prorenin to renin
B. J. Morris and D. F. Catanzaro

447 Effect of converting enzyme inhibition with captopril on *in vitro* angiotensin production in sheep
D. T. W. Fei, J. P. Coghlan and B. A. Scoggins

451 Alcohol and blood pressure in a working population
P. D. Arkwright, L. J. Beilin, I. Rouse, B. Armstrong and R. Vandongen

455 Immunoreactive β-endorphin levels in plasma and pituitary tissue from genetically hypertensive and normotensive rats
J. S. Hutchinson, A. Lim, R. DiNicolantonio, J. A. Clements and J. W. Funder

459 Adrenaline synthesizing nerve cells in the medulla of normotensive and hypertensive rats
J. P. Chalmers, P. R. C. Howe, M. Costa, J. Furness, W. Lovenberg and Y. Wallman

463 Hypertension through adrenaline activation of prejunctional β-adrenoceptors
H. Majewski, L.-H. Tung and M. J. Rand

469 On the relationship between cardiac output and peripheral arterial resistance
G. W. Boyd and A. C. Yong

473 Effect of captopril on blood pressure and bradykinin vasodepressor responses after nephrectomy and suppression of prostaglandin synthesis in anaesthetized rats
R. Vandongen, A. Barden, A. Tunney and D. Mahoney

477 Production of angiotensin converting enzyme by cultured bovine endothelial cells
F. A. O. Mendelsohn and C. Kachel

483 Psychosocial stress induces tubulointerstitial nephritis unrelated to hypertension in CBA mice
J. P. Henry and P. M. Stephens

489 Central aminergic mechanisms associated with the clonidine withdrawal syndrome
S. J. Lewis, M. R. Fennessy and D. A. Taylor

497 Renal autotransplants in sheep: investigation of renal function and renovascular hypertension
J. G. McDougall, J. P. Coghlan, D. A. Denton, D. T. W. Fei, T. G. Hammond, K. J. Hardy, S. J. Potocnik, B. A. Scoggins and R. D. Wright

503 Dual effects of clonidine on rat prejunctional α-adrenoceptors
I. C. Medgett and M. J. Rand

509 Role of the kallikrein–kinin system in the renal effects of angiotensin-converting enzyme inhibition in anaesthetized dogs
B. H. Clappison, W. P. Anderson and C. I. Johnston

515 Regulation of uterine smooth muscle bradykinin receptors by bradykinin levels and angiotensin converting enzyme inhibitor in the rat
M. Yasujima, P. G. Matthews and C. I. Johnston

519 Importance of antidiuretic properties of vasopressin in experimental renal hypertension
R. L. Woods and C. I. Johnston

525 Differing noradrenaline kinetics in essential hypertension and depressive illness. Two diseases in which the plasma concentration of noradrenaline is sometimes elevated
M. Esler, J. Turbott, R. Schwarz, P. Leonard, G. Jackman, H. Skews, A. Bobik, G. Jennings and P. Korner

531 The cardiovascular effects of intravertebral angiotensin II before and after treatment with clonidine
E. R. Lumbers and I. A. Reid

537 The effects of indomethacin in treated hypertensive patients
L. M. H. Wing, A. J. C. Bune, J. P. Chalmers, J. R. Graham and M. J. West

543 Effects of meclofenamate and captopril on blood flow to the kidney and spleen in conscious rabbits subjected to mild haemorrhage
R. A. Banks, L. J. Beilin, J. Soltys and L. Davidson

549 Opiates inhibit the dopaminergic enhancement of the renal response to aldosterone in the rat
W. R. Adam, J. A. Danks and G. Goland

553 Haemodynamic response to ACTH administration in essential hypertension
J. A. Whitworth, D. Saines, J. Andrews, J. G. Sloman and B. A. Scoggins

NUMBER 6, NOVEMBER/DECEMBER

557 Cardiohaemodynamic effects of long-term intravenous administration of *N*-(2-hydroxyethyl)nicotinamide nitrate (SG-75), a potent coronary vasodilator: comparison with glyceryl trinitrate
K. Sakai, Y. Shiraki, T. Yamazaki, M. Akima, H. Nabata and Y. Ohba

567 The effect of long-term chlorpromazine and desipramine treatment on adrenal corticosterone, cyclic AMP, and cholesterol distribution in rats
F. Hung and M.-Y. Chan

575 The cardiovascular actions of 1-methylisoguanosine
J. F. Marwood

585 Effects of 2-nicotinamidoethyl nitrate (SG-75) on pancreatic secretion in the isolated, blood-perfused pancreas of the dog
K. Iwatsuki, K. Ikeda and S. Chiba

591 Effects of gold sodium thiomalate on cytosolic copper and zinc in the rat kidney and liver tissues
R. P. Sharma and E. G. McQueen

601 Proceedings of the Australian Society of Clinical and Experimental Pharmacologists, held in December 1980, Canberra

677 **Author Index to Volume 8**
